

# FACT SHEET

Global Masters in innovative, cutting-edge drilling solutions

## FACT SHEET

Headquartered in South Africa and listed on the JSE, Master Drilling delivers innovative drilling technologies and has built trusted partner relationships with blue-chip major and mid-tier companies in the mining, civil engineering and building construction sectors across various commodities worldwide. Operations span across the African continent in Democratic Republic of the Congo, Zambia, Mali, Ghana, and Sierra Leone, and in Latin America in Brazil, Chile, Colombia, Mexico, and Peru. Master Drilling also has a presence in the US, Canada, Australia, India, Turkey, and China.

With new technologies such as the Mobile Tunnel Borer and the Blind Shaft Boring System, our innovative solutions and tailor-made designs coupled with a flexible support and logistics chain, make Master Drilling the preferred drilling partner throughout the lifecycle of projects from exploration to production and capital stages. To enhance this, our acquisition of Geoserve Exploration Drilling aims to provide a platform for horizontal integration in the mining industry, augmenting our expertise and global reach.

We service our clients by conceptualising, developing, and delivering the equipment you need; assembling and establishing a diverse portfolio of custom drill rigs; providing engineering support for drill rigs and continuously upgrading our portfolio. We train our people by enhancing and developing skills to leverage our machinery and provide operational support and complete project management for all our drill rigs

**“We support our clients’ unique needs with our specialised in-house equipment design, manufacturing, training, and maintenance capabilities”**

### OUR BUSINESS SECTORS

MINING

CIVIL

ENERGY

### OUR STRATEGIC PILLARS

PEOPLE CAPACITY & DEVELOPMENT

TECHNOLOGY OPTIMISATION

INCREASED PROFITABILITY

SUSTAINABLE GROWTH

## SERVICES

### ROCK BORING

Our RB fleet is the largest in the world, with our larger diameter rigs we are able to drill depths up to 1.5 km.

- Raise Boring
- Horizontal Raise Boring
- Box Hole Boring
- Slot Boring
- Reef Boring
- Mobile Tunnel Boring
- Blind Shaft Boring System

### EXPLORATION DRILLING

Master Drilling has a fleet of equipment that is highly specialised.

- Core Drilling
- Percussion Drilling
- Reverse Circulation Drilling
- Mud Rotary Drilling
- Air Rotary Drilling

### SUPPORT SERVICES

Our service division additionally undertakes design, engineering, manufacturing, customisation and maintenance support for our drilling activities.

- Directional Drilling
- Stage Shaft Support
- Remote-Operated Shaft Support
- Piling
- Geo Intelligence

## BOARD OF DIRECTORS

### EXECUTIVE DIRECTORS

Danie Pretorius  
Chief Executive and Founder

André van Deventer  
Chief Financial Officer

Gary Sheppard  
Chief Operating Officer

Koos Jordaan  
Technical Director

Eddie Dixon  
Chief Operation Officer  
Master Drilling Exploration (Pty) Ltd

### NON-EXECUTIVE DIRECTORS

Hennie van der Merwe  
Chairman  
Independent Non-Executive Director

Akhter Deshmukh  
Independent Non-Executive Director

Shane Ferguson  
Non-Executive Director

Hennie Faul  
Independent Non-Executive Director

Mamokete Ramathe  
Independent Non-Executive Director

# GLOBAL OPERATIONS MAP

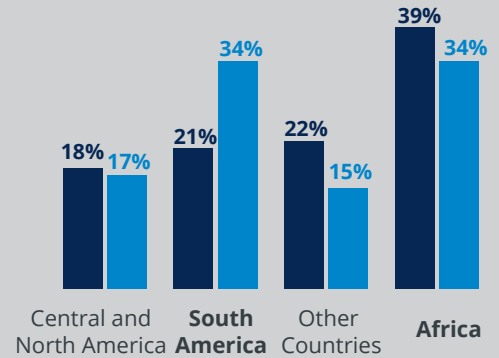

“Our raiseboring capability offers advantages over other conventional drilling methods, including reduced costs, increased speed and safety.”

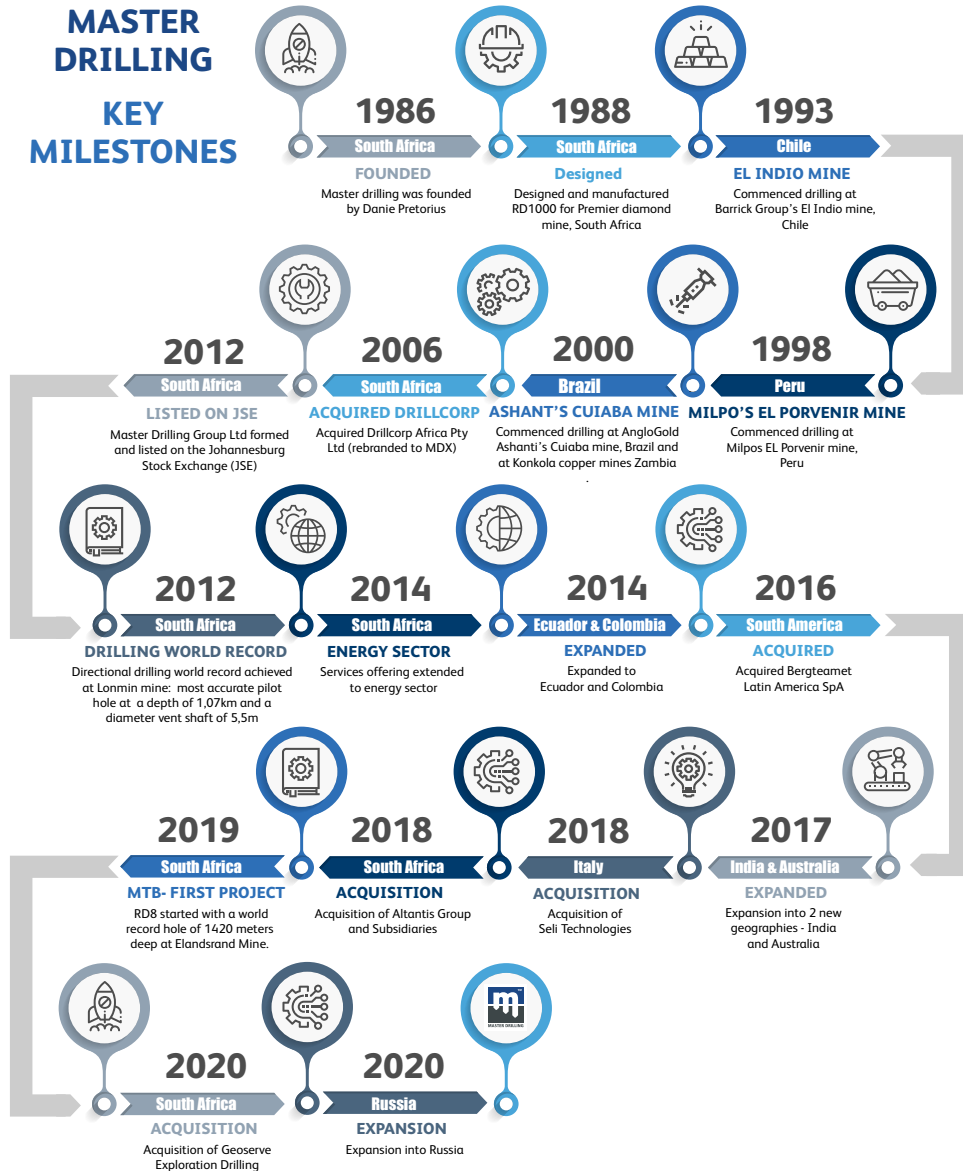

## SALIENT FEATURES FOR THE PERIOD ENDED 31 DECEMBER 2020

- Stable order book
- Healthy pipeline
- Continued focus on working capital management
- Increased cash from operating activities

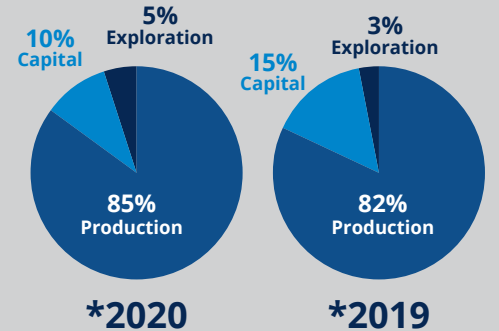

## REVENUE GEOGRAPHIC DIVERSIFICATION

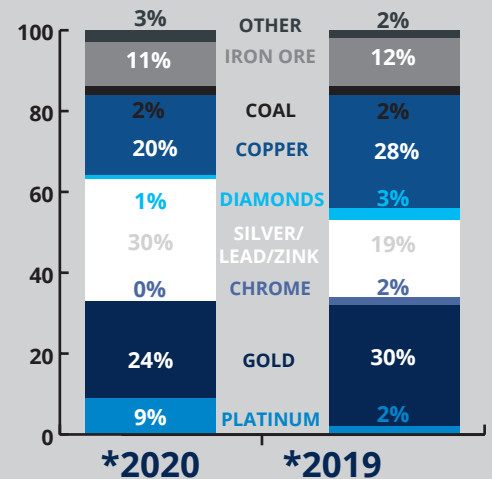

## MASTER DRILLING KEY MILESTONES

## REVENUE MINING ACTIVITY DIVERSIFICATION

## REVENUE COMMODITY DIVERSIFICATION
